TORAH STUDIES - Perceiving Reality: Bereishit 5770

A weekly Journey into the Soul of the Weekly Torah Portion

Portion: BEREISHIT: One Torah, Many Meanings

What do you say to a friend who recommends that you read a book that you've already read? How do you respond when you're invited to go to a movie that you've already seen? Most of the time we'll respond: "Thanks, I've read that one" or "No thanks, I've seen it already." It's rare for any of us to read a book or see a film more than once, no matter how much we liked it. Yet there's one book, The Torah, which we read and study over and over again, each time learning new, profound, and important lessons. And each year we're excited on such a deep level to begin studying it from the beginning, once again. That's because the Torah is such an amazingly, uniquely complex and multi-layered book. On a simple level, it contains the story of the Jewish People—beginning with the Creation of heaven and earth and concluding at the end of our nation's forty year Journey in the desert. But in addition to being the story of our people, embedded in the Torah's verses are 613 specific commandments; all of the roots of every Jewish law and custom ever followed by ancient and contemporary Jews alike; eternal moral instructions; practical guidance for living a happy and fulfilled life in the 21st century; and deep, mystical secrets related to Creation and the afterlife. The question is: How is it possible for any one book to contain all of these layers of meaning at once? In this week's Torah Studies class we'll be studying the core Code in which the Torah is written—a Code that enables just one book to contain such a universe of meanings.

I feel like
I'VE BEEN HERE BEFORE.

Maybe I have.

Like many people, you've probably wondered: Does Judaism believe in the soul? The afterlife? Heaven and Hell? Reincarnation? If they exist, what are they like? In this brand-new course, you'll get answers from classic Jewish sources about some of life's - and death's - most important questions.

Learn where you come from, where your lost loved ones are to be found, and how the before and after is all about the here and now.
